OFFICE OF RESEARCH AND REPORTS

Project Proposal Memorandum

TO: Chief, Reports Division

6 November 1951

FROM: Chief, Materials Division

1. Title of Proposed Project: Use of fuel Briquettes in Soviet Bloc

2. Statement of Project

Problem: To determine the primary consumers of briquettes in the Soviet Bloc and location and production of major preparation plants.

Scope: The study will develop the major consumers of fuel briquettes in the Soviet Bloc particularly in Western USSR and the European Satellites. While all consuming installations will not be specified, the major industrial users will be determined. The source of the fuel briquettes for the major consumers will be established along with the general pattern of distribution.

3. Need for Project: To aid in determination of vulnerabilities of major industrial installations.

4. Cooperation Desired from Other Divisions of ORR:

D/I - Information on industrial installations
D/S - Information on specific transportation routes

Graphics or Maps: Maps showing location of briquetting plants and movement of briquettes to major consumers

5. Other Sources and Facilities to be Exploited: FDD, IR, Library

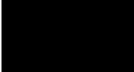

6. External Research to be Required (if any): None
